Product Overview

Water-based coating resins

VOC-free alkyd emulsions for the manufacture of primers and baking enamels

VOC-free polyols for the formulation of aqueous 2K-PU lacquers

Alkyd emulsions with selected monomers and raw materials for paints with environmental labelling

PU-modified VOC-free alkyd emulsions for decorative wall paints and wood lacquers

Modified VOC-free alkyd emulsions for wall paints and primers with superior stain blocking effect

PU-modified VOC-free alkyd emulsions for trim paints and top coats

VOC-free copolymer emulsions for wood stains and wood impregnations for interior and exterior applications

Maleated linseed oil for the manufacture of universal tinting pastes and for the modification of water-borne lacquers

Solvent-based coating resins

Solvent-based alkyd resins for specialized applications

Copolymers based on fish oil for penetrating wood varnishes and corrosion protection primers

Copolymers for the formulation of wood preservatives; carrier for biocides

Phenolic resins

ASKOFEN™

GP-Phenolic Resins

Carbon products

DONACARBO S
Series

DONACARBO SG
Series

Additives and

Y 25 Paint Additive

ASKODRY

Toll manufacturing

Manufacture of phenolic resins
customer-owned recipes

Resins

Phenolic resins for automotive friction materials, composites, packaging and can coatings

Phenolic resins for primers, protective coatings, packaging coatings, pipe coatings and prepregs

Products

Milled or chopped carbon fibers for electrically conductive coatings, friction pads, gaskets and composites

Graphitated carbon fibers for high-performance applications

and auxiliaries

Anti-settling agent based on polyethylene wax

Dryer for aqueous alkyd systems

Manufacturing

Phenolic resins, alkyd resins, polyester resins, etc. according to specifications.

A Reliable Partner for Exacting Solutions

ASK Chemicals provides innovative solutions for high-quality applications in the fields of paints, coatings and composites with its **business line Resins & Specialties**.

High quality as well as development partnerships and individual services for our customers come first at ASK Chemicals. The company has **production sites in Wülfrath (Germany), Cleveland, Ohio (USA), Castro Urdiales (Spain) and Campinas (Brazil)**. Competent sales partners in some 30 countries guarantee a rapid response to customer requests and fast delivery.

Safety and environmental requirements are key to us. ASK Chemicals is certified in accordance with DIN EN ISO 9001:2008, DIN EN ISO 14001:2004 + COR 1:2009, DIN EN ISO 50001:201 and BS OHSAS 18001:2007.
